- 1 Professor Bonicillo was. engaging, enthusiastic, accomodating, and show both passion and charisma in his lectures. - 1 Communication, prior and outside of class, would be beneficial when TAs are unable to help with class items such as clarification on assignment details and other misc. questions.
- 2 Make the assignments have more relation with the course content. I feel like what I learn in class and what I am expected to do for the assignments are not related.
- 3 none

Q: Please expand on the instructor's strengths and/or areas for improvement in facilitating inclusive learning.

- 1 If we are expected to build a web project to practice the content for the lectures, you could consider to make web development and database as a pre-request for this course. Without the knowledge of web development, I spent most of my energy and effort on the technical part, not practicing the principles or patterns I learnt during lectures.
- 2 slides content would be better to be related to the project
