Instructor Related Questions: Holly Jimison (15 comments)

Q: What were the strengths of this course and/or this instructor?

- 1 Well organized class. Instructor was flexible. Information was easily accessible. Deadlines and due assignments were clear. There was a sense of community. Instructor has a great understanding of canvas features, one submission for group projects. Instructor has a good understanding of how to put together an online course. I would take this class again, and recommend it to anyone that need a online version of this class. I would extend the Instructors contract if it was up for renewal.
- 2 Tons of reference material.
- 3 Takes time to give feedback to students and review everyone's work. Very fair grading. Chance to learn about a topic that is underserved in most CS curriculums.
- 4 Lectures were very clear and informative.
- 5 Appropriate workload and efficient learning experience. Holly is kind and keen to help us improve.
- 6 the planning and execution of the course syllabus are excellent

Q: What could the instructor do to make this course better?

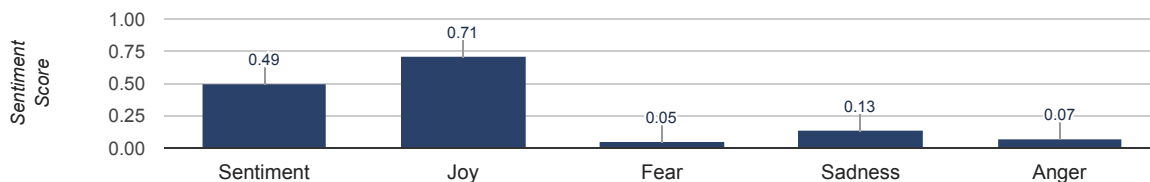

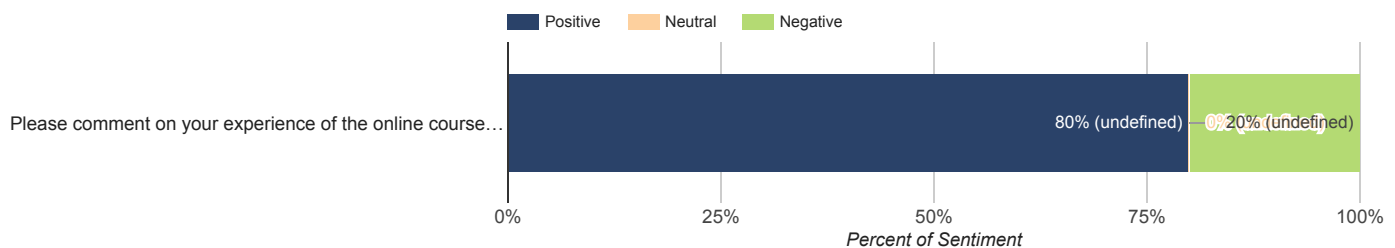

- 1 I would not give a time estimate on how long it take to complete the exam, because I thought it took more than 2 - 3 hours to complete. I would just emphasize when it due, the format, and to start as early as possible. I would have really like a digital version of the book, they are searchable which is nice.
- 2 Spread out assignments more. Some weeks we had way more course load than all the others.
- 3 There are too many assignments, which makes it feel like busy-work. Make sure that assignments are tailored to course concepts and contribute to learning rather than just taking up time.
- 4 Provide more resources in addition to the textbook.
- 5 little more live interactions like live calls every week could have made it even better

Q: Please expand on the instructor's strengths and/or areas for improvement in facilitating inclusive learning.

- 1 Environment was very inclusive.
- 2 N/A
- 3 Instructor provided good feedback for project. Able to reach out to instructor with any questions related to material and project.
- 4 The development and implementation of the course syllabus are outstanding. However, adding more real-time interactions, such as weekly live calls, could enhance it further.

Questions to Assess Students' Online Experience (5 comments)

Q: Please comment on your experience of the online course environment in the open-ended text box.

Q: Please comment on your experience of the online course environment in the open-ended text box.

I enjoyed this class and the contents. The book was well chosen. The class was well organized. I also appreciated the submission deadlines structure. The instructor was responsive and flexible. I enjoyed that she included weekly video, especially given that the class was asynchronous. This helps to ground the class and work that need to be done for the week. I appreciate that she not only promoted the reading assignment, but also made it "worth my time" by associating it with points that contribute to your final grade. I also like that she organized the groups for the final project, less anxiety provoking. I got lucky and got a really good group. I would take this class again. ★★★★★
- 2

Professor provided tons of reading material which helped in doing homework. ★★★★★
- 3

Overall, good experience. I feel it would be helpful to have more interaction in the team's general channel. Saw several questions that were unanswered or replied to after the deadline. ★★★★★
- 4

Very good. ★★★★★
- 5

we didn't have any live interactions as we got only the meeting recordings every week ★☆☆☆☆

Student Self-Assessment of their Effort to Achieve Course Outcomes (4 comments)

Q: What I could have done to make this course better for myself.

- 1

Not wait till the last minute to do assignments.
- 2

N/A
- 3

Look up additional resources related to material for better understanding. Sometimes didn't quite understand everything the textbook mentioned.
- 4

could have spent a little more time in reading the course materials in detail.
