Q: What were the strengths of this course and/or this instructor?

- 1 don't know
- 2 patience
- 3 She is always very serious about answering students' questions
- 4 Generally very knowledgeable about the subject material, and helpful when people had questions.
- 5 experience
- 6 great cs foundations

Q: What could the instructor do to make this course better?

- 1 Homeworks are too hard compared to the learning concepts. It would be great if the format of the homework and examples in the class are similar.
- 2 more energy
- 3 Sometimes I think the class time is too long
- 4 The instructor went out of order on the lectures/homeworks/readings, which was very confusing to me at times. In my opinion, the reading for the lecture should be assigned first, then we should have the lecture on the topic, and then we should have adequate time to complete the homework for that subject. I was not a fan of when unrelated readings were posted, or lectures were flip-flopped, preferring it to follow the order that was indicated.

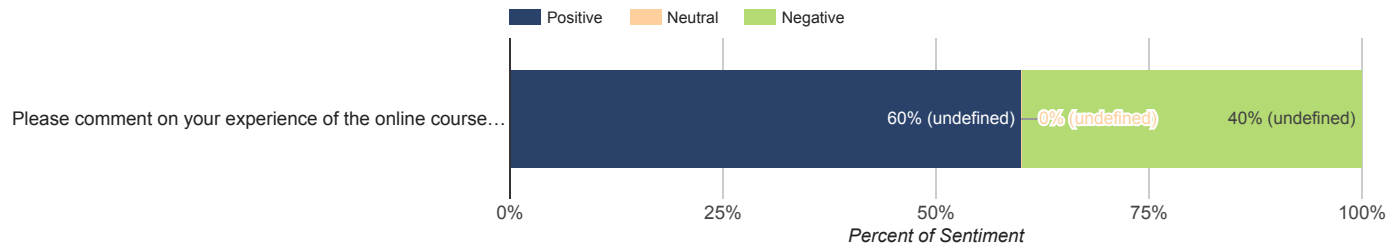

Also, some of the due dates were very close together, and I would have preferred to be given more time to complete assignments, even for those that were optional, instead of having a bunch of things due all at the same time.
- 5 livelier the classroom

Q: Please expand on the instructor's strengths and/or areas for improvement in facilitating inclusive learning.

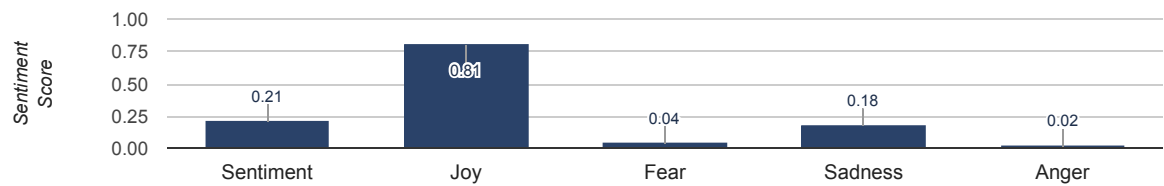

- 1 she makes sure students learn things, however, explanations are sometimes hard to follow.
- 2 patience
- 3 The instructor did not understand my project proposal when I initially asked her about it, and she basically tore it apart and gave me the impression that she thought it was a terrible idea. Then it turned out later that she had misunderstood the idea, and the project was completely fine. I would have preferred her to ask more questions about it before tearing it apart...
- 4 more passion
- 5 reduce the homework workload
