Q: What were the strengths of this course and/or this instructor?

- 1 Willing to listen and help
- 2 Reachable
- 3 Feel like a nice guy, but actually he is not a reliable person at all. Do not care about the students, only his own work load.
- 4 Instructor provided good reading material for lecture topics. Instructor's office hours were really helpful. Instructor responded to emails and questions promptly.

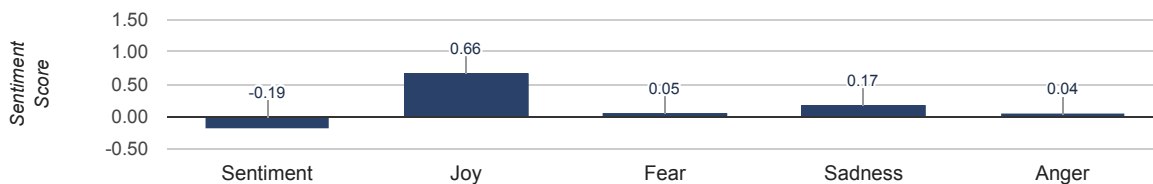

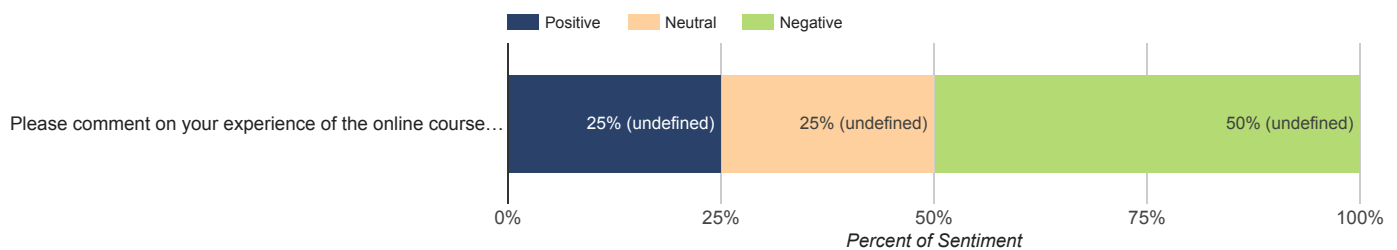

Q: What could the instructor do to make this course better?

- 1 Maybe get to know target audience a little bit more before teaching? Some of us don't have data background so it's been challenging for a long while
- 2 Sometimes could give more examples
- 3 If the professor wanna teach, he really need to be prepared and get serious about the teaching. Feels like the professor just want get the title not to do the work.
- 4 Would be helpful if we had more practice problems with solutions so we can check our understanding since homework usually contained one-two questions per topic. Be able to get feedback on homework.

Q: Please expand on the instructor's strengths and/or areas for improvement in facilitating inclusive learning.

- 1 Haven't thought of any yet
- 2 Kind
- 3 The most irresponsible "professor" you could ever seen.
- 4 The use of colab activities were useful but I sometimes found it a bit difficult to follow and complete in class. If possible, maybe there could be a discussion section dedicated to going over colab.

Questions to Assess Students' Online Experience (4 comments)

Q: Please comment on your experience of the online course environment in the open-ended text box.

- 1 Not very good. ★☆☆☆☆
- 2 Kind and interesting ★★★★★
- 3 Not structured, everything is here and there. Different saying than doing. Everything is to save his time and effort. He do not care how students is doing. ★★★★★
- 4 Most of the online experience were from office hours. Wish the TA's office hours were at better times and had more support after one of the TAs left. ★☆☆☆☆

Student Self-Assessment of their Effort to Achieve Course Outcomes (5 comments)

Q: What I could have done to make this course better for myself.

- 1 Learn some statistic/math before class
- 2 Do some own experiments on some new tools first
- 3 Change a Professor
- 4 Dedicated more time in understanding the basics of the concepts.
- 5 Find more exercise problems to practice concepts that we learned
