Q: What were the strengths of this course and/or this instructor?

- 1 N/A
- 2 patient and nice
- 3 I could have allocated enough time to communicate with the teacher and teaching assistants about any unclear concepts or questions, allowing myself time to review the content covered in 5001.
- 4 Ildar is super good at explaining the dull knowledge in a clear and interesting way! He tried his best to deduct some formalism stuff in the course like peers' review. He respects students' efforts and gives reasonable scores.

Q: What could the instructor do to make this course better?

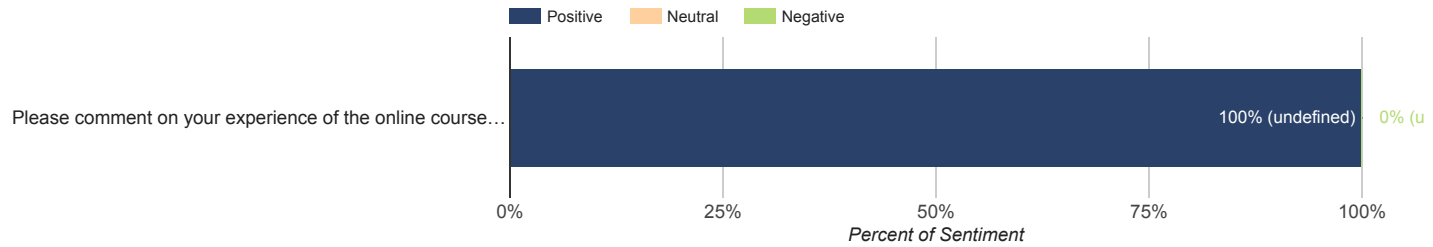

- 1 N/A
- 2 the materials are well-organized
- 3 Perhaps in the relevant courses for the final project, it would be beneficial to share more practical examples of API applications.
- 4 1) I hope the instructor could lecture more in the class as I love Ildar's lecturing which is much better than the recorded videos and more helpful for finishing the assignments.
2) I hope the instructor could change the syllabus if it's not so suitable for new beginners to learn.
3) I hope the instructor could reduce more formalism stuff like reflections, strict requirements in writing docstrings, etc.
4) I hope the scores TAs deducted could be more reasonable. I hope we could be given more sense of support that deducting scores is for learning from the mistakes rather than just for deducting them.

Q: Please comment on your experience of the online course environment in the open-ended text box.

- 1 Greet ★★★★★
- 2 online video could be better and richer in content ★★★★★
- 3 I don't like the online course environment and I prefer the offline course environment. I found some online videos are not so useful for learning the knowledge and finishing assignments, thus I barely watched them. ★★★★★☆
- 4 good ★★★★★
