Q: What were the strengths of this course and/or this instructor?

- 1 This course allowed me to experience VR/AR development.
- 2 She is so energetic
- 3 Her knowledge, engagement and ability to create a great community of learning.
- 4 Very enthusiastic professor! And always encouraged us and complimented on us so much! Makes me feel very motivated. A lot of guest lecturers from guests in different areas, I was able to have more perspectives in cutting edge technologies, makes me more curious in things

Q: What could the instructor do to make this course better?

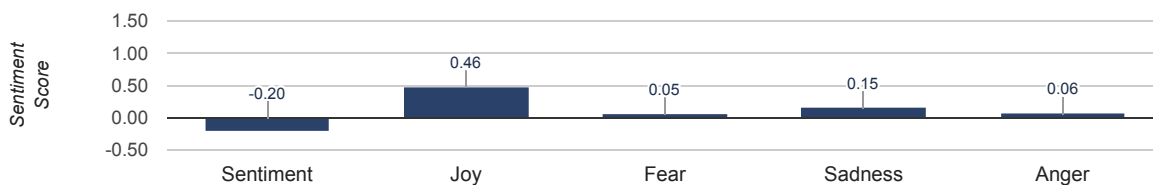

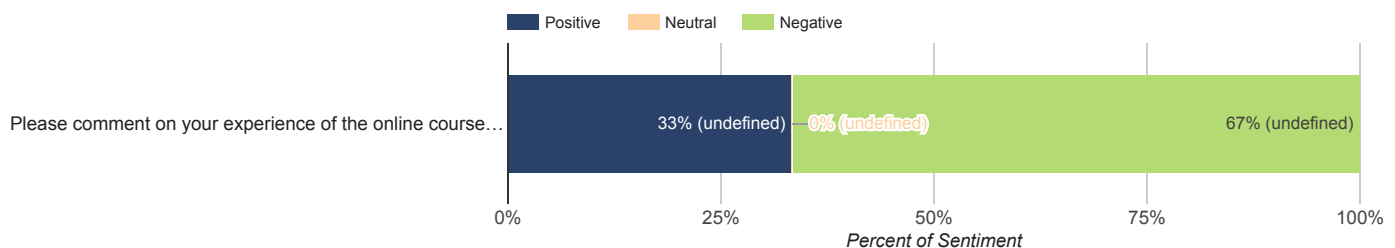

- 1 The course sessions could be more technical since we are mainly programming in an app called Unity, but programming using this app is very different from my other programming experiences in other courses.
- 2 teach more please
- 3 Prepare better the course content, both in terms of online material, and the on ground class.
- 4 It would be great to have more technical lectures/labs, and teach about how to develop in unity/unreal

Q: Please expand on the instructor's strengths and/or areas for improvement in facilitating inclusive learning.

- 1 It would be great if the instructor can provide more technical lectures, I felt the lectures were not that helpful and too theoretical, and I often find myself wasn't able to learn too much from the lectures.
- 2 It was great to meet her connections, but other than that I feel that the class was not a space to have engaged discussions.
