Instructor Related Questions: Anthony Mullen (3 comments)

Q: What were the strengths of this course and/or this instructor?

- 1 The instructor is nice, willing to help during class time.

Q: What could the instructor do to make this course better?

- 1 The lecture materials were not helpful in terms of learning web dev. I wish the instructor spends more time on teaching technical terms, tools, frameworks, and packages used in MERN. Wasted a lot of time browsing and circling on the internet for not knowing how to ask the right question.

Given started code is great to help students to start, but I hope there were more explanations on the starter code.

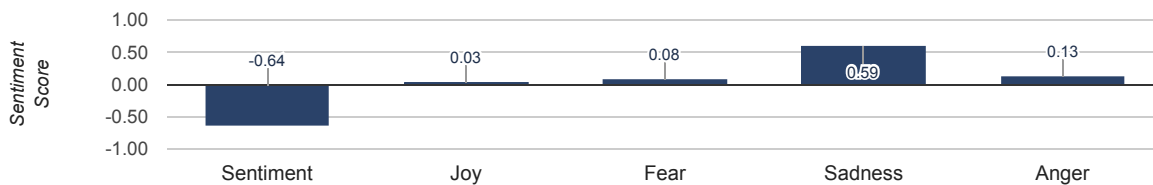

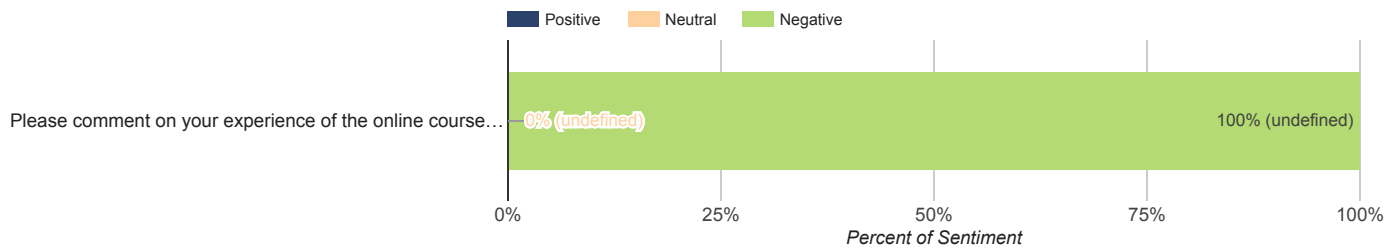

Q: Please expand on the instructor's strengths and/or areas for improvement in facilitating inclusive learning.

- 1 It is nice that instructor was willing to help and answer questions after the lecture. However, students could only ask questions outside of lecture through Piazza since office hours was not available.

It's nice to cover Javascript details in lecture, but I hope the lecture can cover more web dev materials such as explaining definition of steps and technical terms, and roadmaps or brief introduction on most commonly used frameworks and tools.

Questions to Assess Students' Online Experience (1 comments)

Q: Please comment on your experience of the online course environment in the open-ended text box.

- 1 Our section is so small that we don't have TA or office hours. ★☆☆☆☆

Student Self-Assessment of their Effort to Achieve Course Outcomes (1 comments)

Q: What I could have done to make this course better for myself.

- 1 Start works early, and self-learning outside of provided course materials.
