 - Extremely approachable.
 - Extremely knowledgeable.
 - Really passionate about computer vision
 - Focusing on both techniques and ethical topics.
 - Teaches not only knowledge but also how to learn effectively over the long term.
- 5 The instructor has rich experience in the field to provide professional advices and is good at explaining complex theories in a way easier for students to understand.
- 6 The professor is very easy to approach and supportive, and he understands the challenges we may have experienced throughout the term. He also acknowledges and respects our work and efforts. The lectures themselves are not boring at all, despite me lacking the depth of knowledge to fully absorb from them.
- 7 Very good!

Q: What could the instructor do to make this course better?

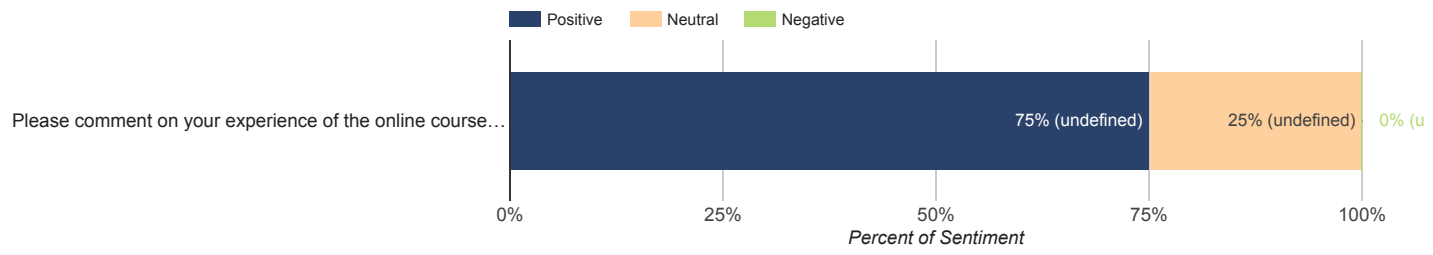

- 1 none
- 2 The learning curve in the first several weeks is quite challenging, especially from Lab0 to Lab1, I hope we can have a more smooth transition or escalation of difficulties.
- 3 Teach more trending computer vision techniques.
- 4 Consider allocating a larger proportion of class time for extended content with depth and industry trends.
- 5 It would be better if more coding details are explained for each class.
- 6 I understand that assigning quizzes and some project work teams and not allowing us to form teams ourselves is a way to promote teamwork. However, I would appreciate the option to get to form the group ourselves since we all have different school and work schedules, and it was quite challenging for me to make it all work out this term.
- 7 already okay

Student Self-Assessment of their Effort to Achieve Course Outcomes (4 comments)

Q: What I could have done to make this course better for myself.

- 1 none
- 2 Do more cutting-edge research.
- 3 I don't think I had the necessary background knowledge in the CV field before I started this course, so I didn't feel prepared for the lectures. I probably should have taken a machine learning course first.
