Q: What could the instructor do to make this course better?

- 1 This course doesn't help students understand software engineering in depth, and it doesn't assign any homework to consolidate students' knowledge. The course teaching is plain and boring.
- 2 when doing live coding in class, slow down a little bit
- 3 very good
- 4 Most of the class activities like presentation, team activity are a little bit a waster of time.
- 5 The instructor could select a better TA. Mattia Contestabile is the worst TA I have met throughout my entire studying life. He is an unqualified teaching assistant and does nothing to help my study. He gave so many unclear instructions and wasted my time. The answers he provided for the final exam make zero sense and are unreasonable. I cannot believe I wasted lots of time to prove my answers according to the slides. All of these works should be done by the TA rather than students.

Q: Please expand on the instructor's strengths and/or areas for improvement in facilitating inclusive learning.

- 1 everything is good
- 2 very good
- 3 N/A
