Q: Please expand on the instructor’s strengths and/or areas for improvement in facilitating inclusive learning.

- 1 The professor is very rigid. Does not clear concepts effectively. Always leaves piazza posts in a question to ponder for us. Leaves us into a whole dilemma state about if we are into the right direction. Never points us in the correct way and then reprimands harshly for our mistakes. Has limited knowledge of the course. Overall a terrible experience would truly recommend changing the faculty for the course.
