Q: What were the strengths of this course and/or this instructor?

- 1

I believe that I had one of the best instructors for this course. She was always energetic, kind and really helpful. Her classes were so good that I was able to understand almost everything that was being taught in class.

She made sure that everyone understood what was being taught in class. I really loved the way how she always used to give us a small problem to work on (based on the course content that was taught to us that day) after she was done teaching the course materials for the day. It allowed us to really internalize what was being taught in class.

I really liked how she handled the semester long project that we had to do. It helped us to practically implement what we learnt in class. She always ensured that she taught what was required to complete a particular portion of project before assigning that work to us.

She is an incredible professor and I really enjoyed her classes.

It is a course provide you the necessary knowledge in job field, and Dr. Jung is an expertise in this field.
- 5

She was able to effectively resolve doubts and explain topics.

Q: What could the instructor do to make this course better?

- 1

I really wished she gave a 5 min break during the classes. Sometimes the classes felt a bit overwhelming because we kept learning new concepts without a break.
- 2

Improve assessment style
- 3

Could help student review before test.
- 4

Dr. Jung has done a great work. But, maybe provide more examples about interview questions and work environment applications will helps a lot
- 5

Maybe a couple of more assignments for students to practice queries.

Q: Please expand on the instructor's strengths and/or areas for improvement in facilitating inclusive learning.

- 1

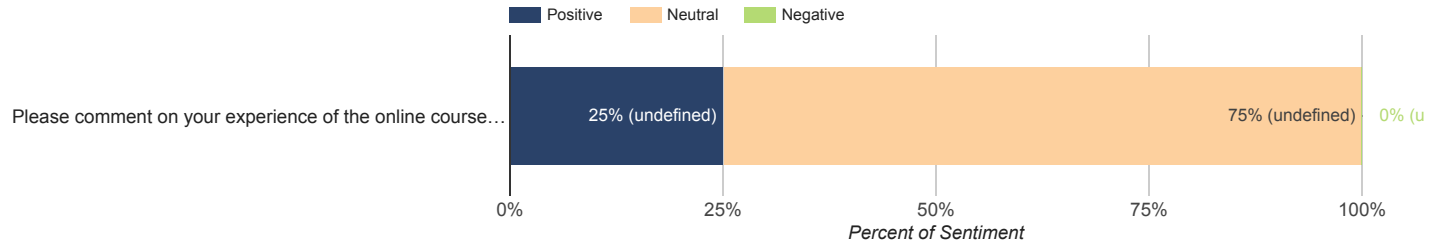

Need to change her assessment style. We ran out of time each exam and i think we had lots of tedious work during the exam. Area of improvement is to make sure exam can be finished within the class time scope and provide all paper or all online exam.
