Instructor Related Questions: Sami Rollins (8 comments)

Q: What were the strengths of this course and/or this instructor?

- 1 The assignments are always highly related to what we need to learn and they help me understand the course better.
- 2 Sami did a very good job at re-explaining our labs, and going over concepts that we did not understand. Additionally, Sami did an exceptional job at answering individual questions for all students including myself in this course.
- 3 Same feelings as my cs5001 evaluation.

Q: What could the instructor do to make this course better?

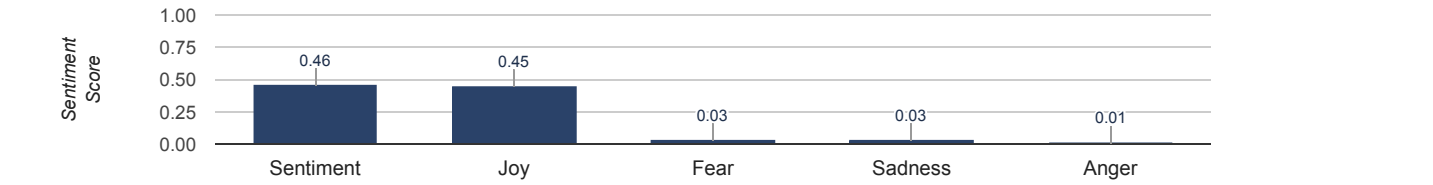

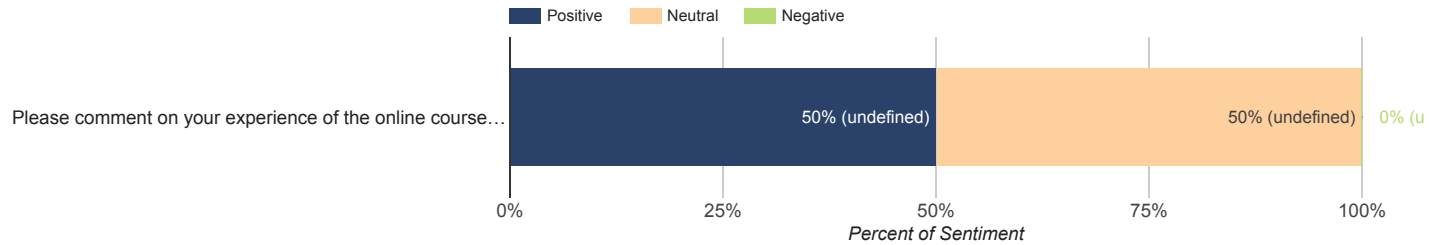

- 1 Maybe sharing or displaying codes from other students in the course after the assignments are graded, so that we might get to know more ways to do the same thing.
- 2 N/A
- 3 Same feelings as my cs5001 evaluation.

Q: Please expand on the instructor's strengths and/or areas for improvement in facilitating inclusive learning.

- 1 I think Sami does a very good job at explaining fundamental concepts for Computer Science to Align students with and without any coding experience. As a student with no coding experience, the time and patience that Sami showed to me throughout this semester and this course helped me to improve my overall grade.
- 2 Same feelings as my cs5001 evaluation.

Questions to Assess Students' Online Experience (2 comments)

Q: Please comment on your experience of the online course environment in the open-ended text box.

- 1 I had a good experience in 5003. Even though the bulk of the information that we learned was in 5001, the Recitation class allowed extra time with Sami and Ethan to go over our current assignments, ask additional questions, and gave us time to work. I enjoyed the extra time with the professor and TA as it helped me complete my assignments and go over concepts that I did not fully understand for our homework. ★★★★★
- 2 N/A ★★★★★☆

Student Self-Assessment of their Effort to Achieve Course Outcomes (2 comments)

Q: What I could have done to make this course better for myself.

- 1 I should have asked more questions at the beginning of the course to help my understanding of certain labs and early projects.
- 2 Same feelings as my cs5001 evaluation.
