Instructor Related Questions: Karl Ni (17 comments)

Q: What were the strengths of this course and/or this instructor?

- 1 The instructor is very helpful/available to students and creates an encouraging environment conducive to helping students learn
- 2 Instructor is patient and helpful to student, easy to get help.
- 3 Instructor's English speaking is good.
- 4 Passionate about the course and very helpful.
- 5 Professor Ni is a super nice and amiable person, and makes everyone feel very welcome in the classroom. He was very good at making the material understandable to students from a wide array of backgrounds.

Q: What could the instructor do to make this course better?

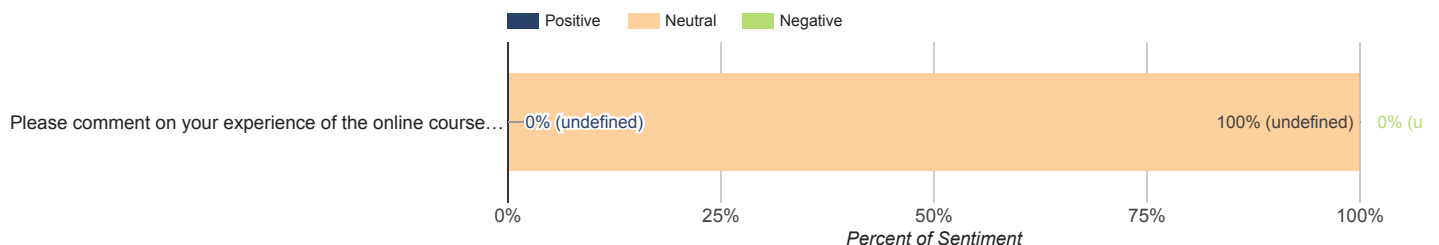

- 1 Sometimes I feel like I'm still not understanding certain concepts clearly after asking for further explanation. Maybe the instructor can work on step by step detailed explanation to help students understand some concepts better.
- 2 Provide more practice questions or applications.
- 3 The review session of midterm can be done better. Students should be notified that the midterm will test writing python codes using specific libraries.
- 4 There can be more bridges between the materials we learned in class and the assignments. Some of the assignments are a bit difficult. But overall, the assignments are quite helpful.
- 5 It would be nice if we had practice exam simulating the actual midterm and final so we know what to expect.
- 6 I think more time spent explaining EDA and giving a more concrete outline for how to successfully analyze, clean and prepare data for ML would have been beneficial.

Q: Please expand on the instructor's strengths and/or areas for improvement in facilitating inclusive learning.

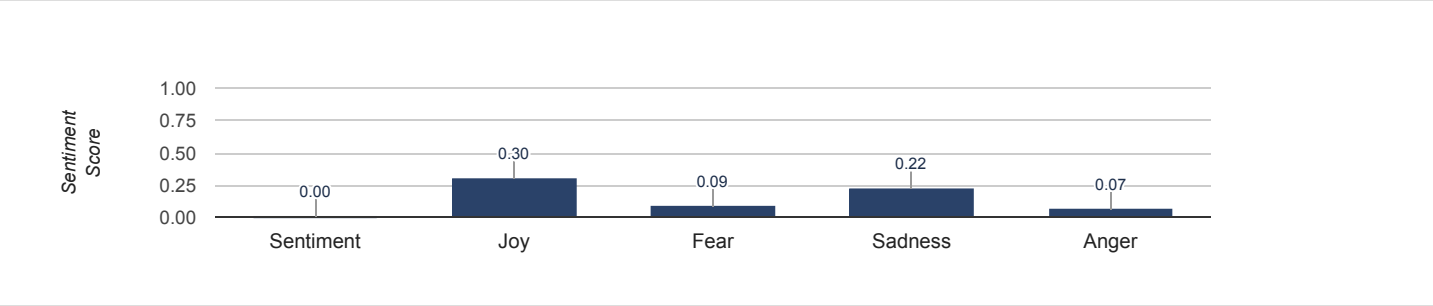

- 1 The instructor is very helpful and committed to helping students learn practical skills.
- 2 Good starter-kit of assignments
- 3 more guidance on the assignment/about the coding part.
- 4 /

Student Self-Assessment of their Effort to Achieve Course Outcomes (4 comments)

Q: What I could have done to make this course better for myself.

- 1 Dived deeper into recommended reading materials and looked at more resources other than recommended materials
- 2 Review course materials more frequently and more detailed
- 3 spend more time doing some python exercises associated with course material
