Q: What were the strengths of this course and/or this instructor?

- 1 The instructor is very knowledgeable and generally able to answer student's questions clearly. The examples he provide help students understand topics better.
- 2 1. In-class practice is very helpful in gauging the concepts and clarifying any questions regarding the lecture we just had. It is a good material for exam preparation. 2. The quick recap of contents discussed last week. This has efficiently helped me recall the concepts and grasp the connection between previous topics and the next topic we're about to go through.

Instructor's strengths:

- Clarity: The instructor always give crystal clear explanations when giving lectures and answering student's questions. He is very well-prepared on the lecture materials. When students ask questions about topics outside of the original lecture outline, he would even add complementary materials and get back to the student in later classes.
- Patience: The instructor is very patient when answering student's questions both in and after class. He would even change the way of explaining if the student couldn't understand for the first time.
- 3 he just does not waste time at all

Q: What could the instructor do to make this course better?

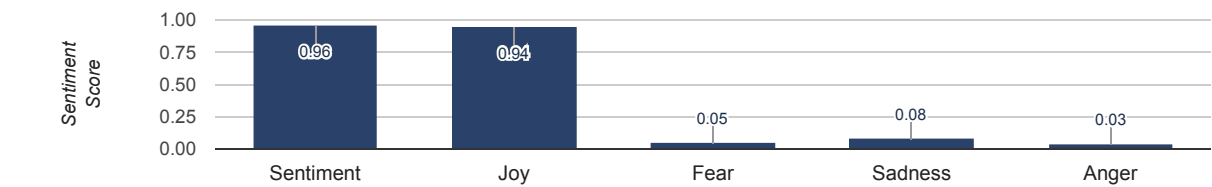

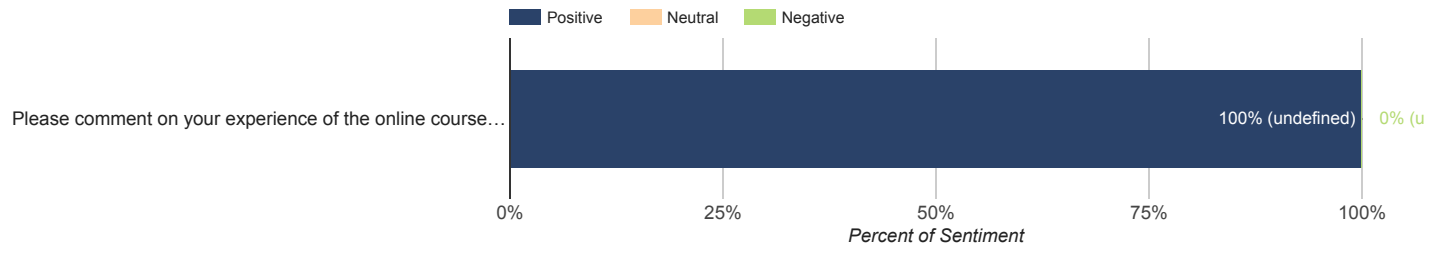

- 1 There is a lot of material to cover for the course so sometimes the classes feel rushed. The professor does allow time for questions but sometimes I'm still processing the material and have not had the time to think of questions.
- 2 During lectures, the instructor sometimes might go too much into the details when explaining some examples. In general it is helpful to have a step-by-step walk through when going over an example, but it might not be necessary (and sometimes might be distracting) if the example is straightforward enough to understand quickly.

Q: Please expand on the instructor's strengths and/or areas for improvement in facilitating inclusive learning.

- 1 He is doing great
- 2 - Responsive and understanding: The instructor is willing to take feedback and respond to the requests from students. For example, when working on difficult assignments like HW4, the instructor was willing to extend the due date in response to student's request of needing more time.
- 3 very clear, very helpful, are not judgy at all to students who don't really follow the class and ask dumb questions
