### Instructor Related Questions: Anthony Mullen (10 comments)

#### Q: What were the strengths of this course and/or this instructor?

- 1 Tony is good
- 2 The labs were helpful. I don't think I ever seen the professor during lab days though so I don't have much more to say.
- 3 TAs in this course hold multiple TA office hours through the week which is really helpful for me learning the course materials.
- 4 The TA's were great at answering questions and assisting with any confusions.

#### Q: What could the instructor do to make this course better?

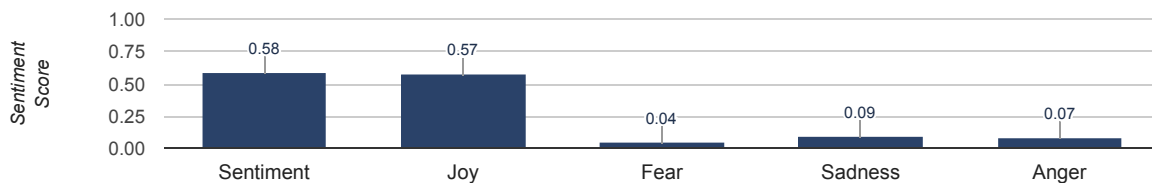

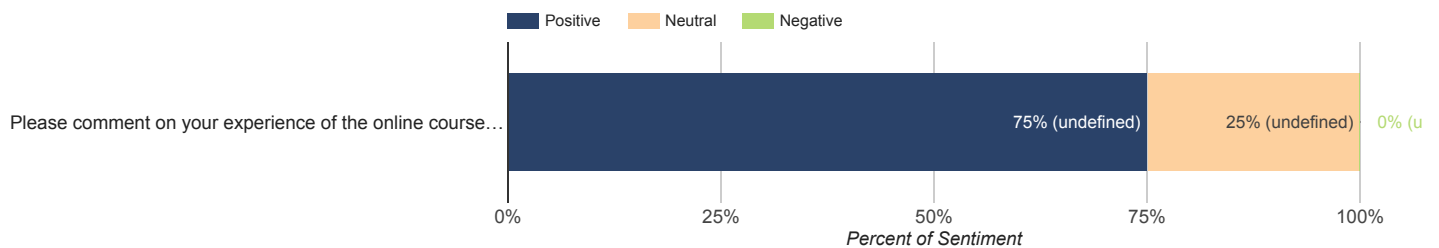

- 1 nothing
- 2 In my other survey for Professor mullen, I mentioned pair programming. If we had to do pair programming assignments where one person would be the navigator and the other, the driver, it might make it so that labs felt more necessary.
- 3 I appreciated getting a little snippet or explanation of what the lab entails during lecture. I think this would help with seeing the connection and application of lecture material to the lab.

#### Q: Please expand on the instructor's strengths and/or areas for improvement in facilitating inclusive learning.

- 1 nothing
- 2 I don't have much to say about the recitation.
- 3 The instructors were great (Professor and TA's) with the lab. I thought the assignments were clear and well defined.

### Questions to Assess Students' Online Experience (4 comments)

#### Q: Please comment on your experience of the online course environment in the open-ended text box.

- 1 very good ★★★★★
- 2 N/A ★★★★★ ☆
- 3 This is a TA lead lab session, the three TAs hold multiple online office hours. That's really helpful ★★★★★ ☆
- 4 I think this lab course was well organized. I do suggest that the instructor go through the Canvas pages for both the lab section and homework assignments to make sure instructions are up to date and links are active/working as expected. ★★★★★

## Student Self-Assessment of their Effort to Achieve Course Outcomes (3 comments)

### Q: What I could have done to make this course better for myself.

- 1 nothing
- 2 I don't have anything different to say that I didn't say in the survey for the class. If its recitation only, I think finding a way to engage more. The lab days felt very disconnected and almost unnecessary to attend. For the rest of this survey, I'll evaluate as if its only for the recitation day.
- 3 I think starting early, and working on the labs before attending the lab section is helpful. This allowed me to at least know where to start with each project and I would have questions prepared for the lab sections.
