Q: What were the strengths of this course and/or this instructor?

- 1 The class and problem set are well-organized. You can use what you have learned in class to tackle all the problems, which is very encouraging.
- 2 inspiring teaching style
time efficiency
caring for every single student
- 3 very engaging and easy to follow along in class.
- 4 The instructor is really well prepared in each class.
- 5 During class, the professor is passionate and energetic. The knowledge taught is often connected to real-life applications, which not only allows us to learn but also encourages us to constantly think about how to apply the concepts.
- 6 Richard is one of the best teachers I have ever seen. Due to his passion, I love math again and learn a lot from this course.
- 7 REALLY GREAT PROFESSOR IN NEU
- 8 Richard is enthusiastic about teaching math for us and he clearly explains every topic in the class. His class is interesting and challenging that I can learn a lot from him. All materials like class notes are helpful. Optional workshops and discussion board answer our questions clearly. Feedback of each assignment is released timely and detailed. Also Richard provides model answers from students of each assignment that are really helpful. He is a really good and responsible teacher that makes me fall in love with mathematics again!
- 9 Patience, superior intelligence, friendliness, organization,Energetic, strong time management

Q: What could the instructor do to make this course better?

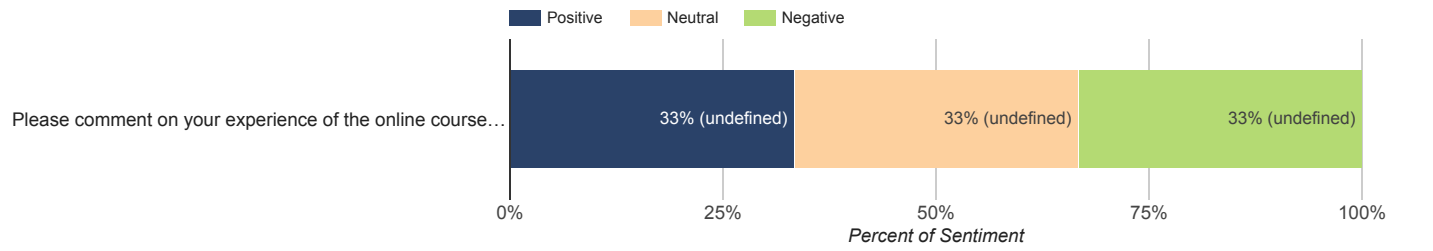

- 1 The class is perfect.
- 2 maybe make better use of the canvas discussions - I'm not sure if everyone knew it was open to ask questions there but it would have been nice to have some online platform to ask any questions as needed, and anonymously would be nice too.
- 3 He is good enough.
- 4 Some of the TAs cannot answer anything when with their OH; when I brought the question up for them, they only said "You should figure it out by yourself ". and I asked what they could do for us; they mentioned that they only helped score the homework or quiz. The OH should have taken 20 minutes, but they only took less than 5 minutes and did not answer anything.

Q: Please expand on the instructor's strengths and/or areas for improvement in facilitating inclusive learning.

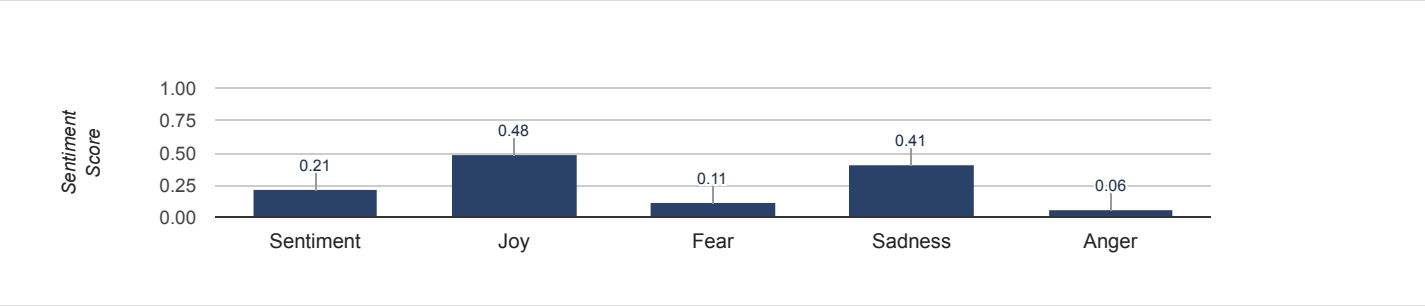

- 1 richard is the best teacher I have ever met, his teaching style is very inspiring and he is totally devoted to teaching.
- 2 I appreciated the instructor checking in with me on being included due to language barriers. I don't think there was much else he could have done on that front. I appreciated the opportunity to work with different people every week, though I didn't gain as much as I would have hoped due to language barriers.
- 3 /
- 4 Really patient and helpful. For example, each Friday and Tuesday will hold a workshop to help students to ask for help. It's not necessary for him to do so.
- 5 should choose better TAs and tell them what they should do. and asked for feedback from some of the students that meet with their OH.
