Instructor Related Questions: Brian Cross (3 comments)

**Q: What were the strengths of this course and/or this instructor?**

1 The strengths were we could practice difficult concepts as form of assignments and improve our understanding of the concept.

**Q: What could the instructor do to make this course better?**

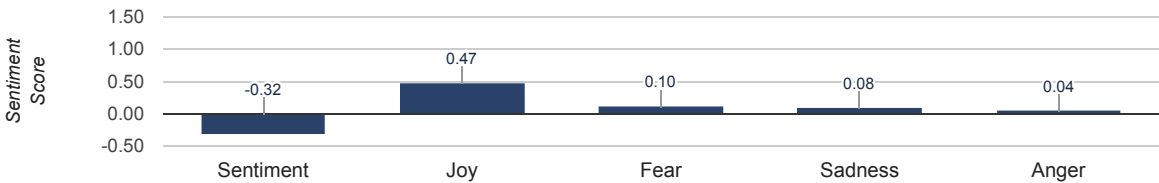

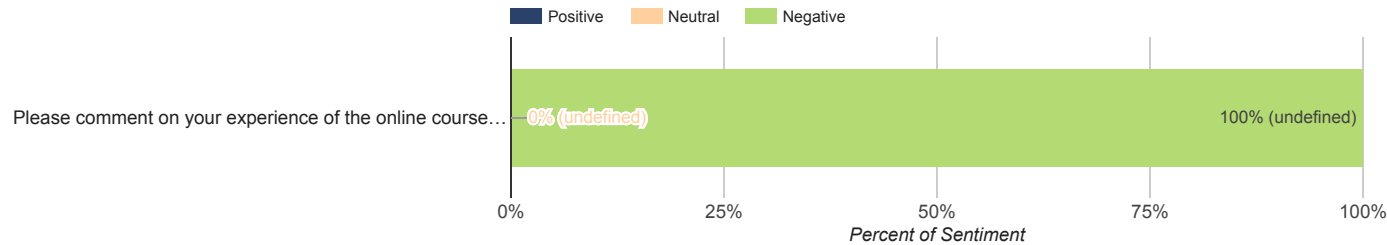

1 If the assignments were more closely aligned with the 5200 course assignments then it would give us practice before we properly implement those concepts in the course assignment.

**Q: Please expand on the instructor's strengths and/or areas for improvement in facilitating inclusive learning.**

1 The lab assignments should run a week earlier so once we are done with those then we can implement those in the course assignments due.

Questions to Assess Students' Online Experience (1 comments)

**Q: Please comment on your experience of the online course environment in the open-ended text box.**

1 It was a good course but I felt that the lab assignments and the course assignments used to clash a lot. Sometimes what we had already implemented in the course assignment, we were asked to implement a much easier version in the lab a week later. If the easier lab assignments were done before course assignments then we would've gotten a better idea on how to correctly do our course assignment and would've understood the requirements better. ★★☆☆☆

Student Self-Assessment of their Effort to Achieve Course Outcomes (1 comments)

**Q: What I could have done to make this course better for myself.**

1 I should delved deeper into the concepts taught in class.
