Q: What were the strengths of this course and/or this instructor?

1   Instructor played no role in the course. All material came directly from AWS.

   The AWS material is comprehensive, but again, you can find the same material for free, just search AWS Cloud Architect Skill Builder.

2   Good material.

3   The course was very well organized with supportive TAs

4   Professor was kind but largely absent. Felt like the AWS platform was the professor instead of the actual professor

5   Wells Structured Materials and Easily Accessible Textbook at No Costs to Student

Q: What could the instructor do to make this course better?

1   Actually participate in the course.

2   Good.

3   Please engage more with the students
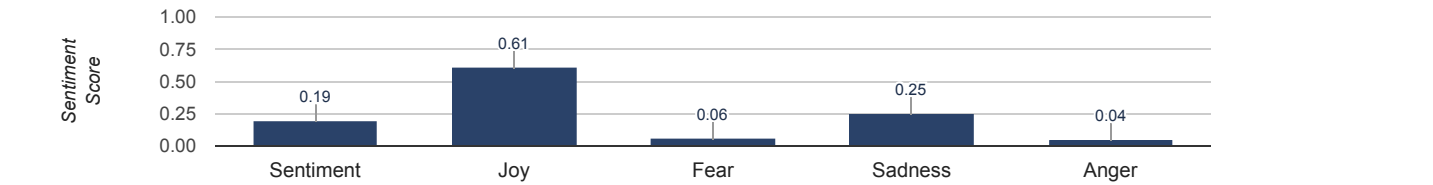

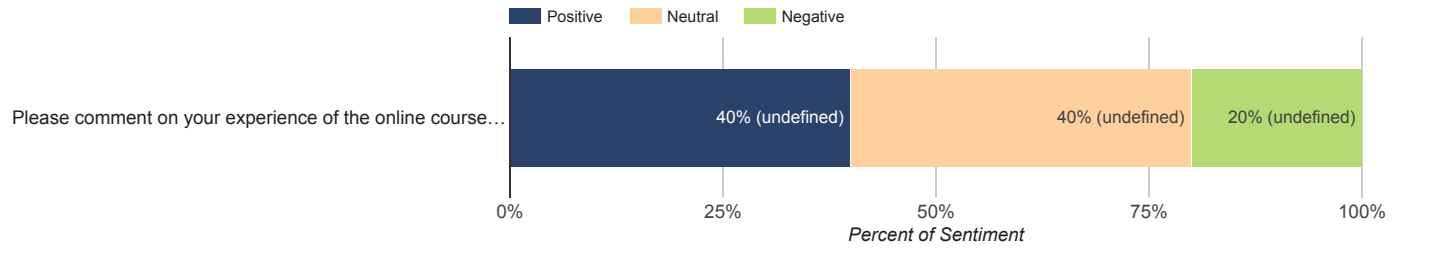

4   Practice of Coding Would Be Nice for Students

Q: Please expand on the instructor's strengths and/or areas for improvement in facilitating inclusive learning.

1   If you are thinking of taking this class, I cannot stress this enough: DO NOT PAY FOR THIS CLASS. It is shameful for Northeastern to charge thousands of dollars for the same material that is available for free.

   The course doesn't even provide certification in AWS services or anything like that. You are much better just studying on your own.

2   Good.

3   Friendly

4   Well Organized

1   Require more interaction and inputs from the Professor on cloud technologies. ★★★☆☆

Q: Please comment on your experience of the online course environment in the open-ended text box.

| 2 | Course material is fine; it comes from AWS and not Northeastern. |

Professor is 100% not involved in the class at all. None of the material is his and he is non-responsive to both students and TAs, which was a problem when some students faced technical issues.

I cannot recommend this class at all, the same material is available free online. ★ ☆ ☆ ☆ ☆

3	Good. ★ ★ ★ ★ ★
4	Use of Teams and AWS Academy Canvas was helpful. TAs and other students were quick to help over Teams when there were issues. ★ ★ ★ ★ ★
5	Well Organized Structure ★ ★ ★ ☆ ☆

Q: What I could have done to make this course better for myself.

| 1 | Not taken this class at all. All the material is available for free, just Google AWS Cloud Architect Skill Builder. |
| 2 | Good. |
