Instructor Related Questions: Keith Bagley (23 comments)

Q: What were the strengths of this course and/or this instructor?

1	The instructor taught really well.
2	The lab is taught by one of the TA, GG. She shows how to code while explaining how to do it step by step.
3	TA was very responsible and always willing to help.
4	Since this was a recitation, our instructor was Gigi, not the professor for 5001. Gigi did a good job of covering the material for the week and was open to helping students with whatever they had questions about.

Q: What could the instructor do to make this course better?
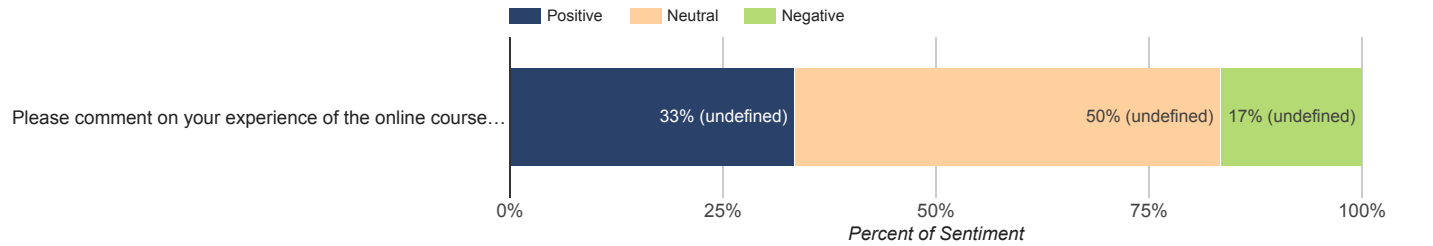

1	Hope can apart the recitation class from the day the same as lecture. Because students need time to think and understand.
2	-
3	I honestly only went to two sessions and then decided it was not worth my time. To be clear, this is not criticism of Professor Bagley and his lectures (which were good!), but the TA led lab sessions. The two lab sessions I attended were just a waste of time. The TA was unprepared and disorganized. I decided my time was better spent reviewing material on my own. Please for the sake of the next class, ensure the TAs are better prepared.
4	This is not a criticism of Gigi, but it would have really helped to have all of our course TAs come to the recitation in-person, not just Gigi. Expecting one person to help a large class with individual programming questions is unrealistic, although she did her best.

Q: Please expand on the instructor's strengths and/or areas for improvement in facilitating inclusive learning.
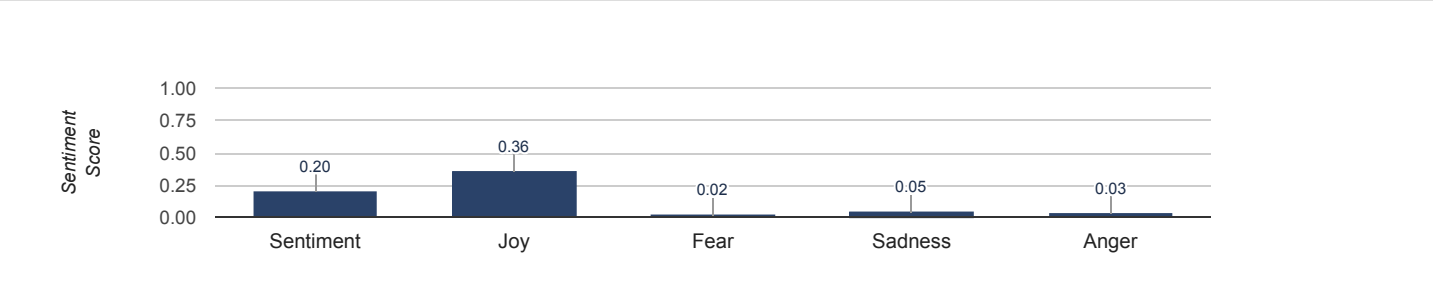

1	-
2	Could encourage more involvement
3	The class was inclusive of all students, but as I said above, it would be better to have all the TAs come to the course in-person so that all students can get the help they need.

Questions to Assess Students' Online Experience (6 comments)

Q: Please comment on your experience of the online course environment in the open-ended text box.

Q: Please comment on your experience of the online course environment in the open-ended text box.

1	It was great. ★★★★★
2	This was an in-person lab so there wasn't a lot of online except for posting materials. ★☆☆☆☆
3	-★★★☆☆
4	-★★★☆☆
5	The TA GiGi is so caring and smart. I love her ★★★★★
6	-★★★☆☆

Student Self-Assessment of their Effort to Achieve Course Outcomes (5 comments)

Q: What I could have done to make this course better for myself.
