5	His love for the material.

### Q: What could the instructor do to make this course better?

1	I think the first half of the class could have been taught at 1.5 or 2 times the speed that it was. I feel like more of the challenging material, including more on ETL and non-relational databases, could have been taught if we didn't spend an *excruciating* amount of time on the easier stuff at the beginning. It made it appear if the professor wasn't prepared to teach this course all the way through despite the fact that he has taught it many many times.
