Instructor Related Questions: Mohammadhossein Toutiaee (22 comments)

Q: What were the strengths of this course and/or this instructor?

1 Laid great foundation for the future learning. Our instructor is detail-driven.

2 provide enough in- class exercises

3 Nothing.

4 make students learn by themselves

5 .

6 nothing

7 Smart and has a lot of experience and skills, and is willing to give help and information to students.

8 We had a lot of exercise during the class which I think is extremely helpful. The instructor gave lots of different insights and solutions for the question and I learned a lot from it.

### Q: What could the instructor do to make this course better?

1 To dedicate more time on lecture. When it comes to excercises, he should have encouraged us to do more on our own and then spend less in-class time on collective problem solving and discussions.

2 To choose another better instructor to replace him.

3 Maybe spend more time on class exercise

4 the online platform maybe dont use next time

5 .

6 I don't think that using powerpoint is an effective way of teaching python
I think instead we should actively code together throughout class and discuss code in detail as we write it

7 Could be more active, he's kinda passive in most of the classes.

8 The lecture might cover more about some of the small details in the textbook. Some of the stuff in the book are not mentioned during the lecture.

### Q: Please expand on the instructor's strengths and/or areas for improvement in facilitating inclusive learning.

1 He is inclusive and encouraging.

2 gives a lot of applications of computer science

3 .

4 He's a really bad professor, the worst professor I ever met.

5 He is a good person, but not sure if he's a good teacher. He has a lot of knowledge and skills, I hope he can share this more actively, not passively waiting for students asking for helps.

6 I think the strength is that the instructor works through the exercises on coding with us and comes up with different ways for solutions.

Questions to Assess Students' Online Experience (8 comments)

Q: Please comment on your experience of the online course environment in the open-ended text box.

Please comment on your experience of the online course…

50% (undefined)   13% (undefined)   38% (undefined)

Q: Please comment on your experience of the online course environment in the open-ended text box.

1   It was good, but only if the progress can be aligned to in-class content. ★ ★ ★ ★

2   The online course is awful and doesn't give any assitence to us. ★ ☆ ☆ ☆ ☆

3   Overall good learning experience. ★ ★ ★ ★ ★

4   . ★ ★ ★ ☆ ☆

5   I don't like the Zybooks, which is required by our professor to let us pay extra money on that. Because we can't take notes or highlight on Zybooks, also some activities history will not be stored on Zybooks. ★ ☆ ☆ ☆

6   good ★ ★ ★ ★ ★

7   The online material platform sucks, I'd say its more or less 60% useful. ★ ☆ ☆ ☆ ☆

8   I actually feel that the online textbook is pretty good for learning. I don need to spend more time on reading it tho. The book is also quite dense so I hope the lecture can cover more of the small details in the book. ★ ★ ★ ★ ★

Student Self-Assessment of their Effort to Achieve Course Outcomes (6 comments)

Q: What I could have done to make this course better for myself.

1   To finish all the after class excercises immediately.

2   doing homework, practise

3   .

4   more careful in exam

5   Not really.

6   Do more readings.
