Instructor Related Questions: Md Nazmus Sakib Miazi (7 comments)

### Q: What were the strengths of this course and/or this instructor?

1   Super friendly and approachable, always willing to help regardless of time/day, clearly put in a lot of effort into understanding and accommodating students' issues.

2   Professor sakib is very supportive during and after lecture. I always come to class and ask him a bunch of questions and resolve my issues. I highly recommand everyone to attend lecture in person.

3   Documentation was phenomenal, professor was really knowledgeable and excited to talk through course topics.

4   He has a website that includes all the things we need to study and we can always go back and look into it

Q: What could the instructor do to make this course better?

1   A common trend across what feels like all graduate CS courses at NEU is that the classes don't teach the basics of collaborating with others through Github (e.g., pull requests, branches, merging, rolling back to a previous commit). For students that don't have any prior experience, a session or three serving as a tutorial on how to use Github would be helpful, since otherwise a ton of project time gets devoted to figuring it out instead of actually being spent on the project itself.

2   Maybe more mini lectures now and then.

3   I would have liked short lectures daily to recover material in readings.

Questions to Assess Students' Online Experience (2 comments)

Q: Please comment on your experience of the online course environment in the open-ended text box.

1   online tutorials helped a lot ★ ★ ★ ★

2   Online material (documentation) was INCREDIBLE. ★ ★ ★ ★ ★

Student Self-Assessment of their Effort to Achieve Course Outcomes (2 comments)

Q: What I could have done to make this course better for myself.

1   There was a slight mad rush to finish the class project because of our partnership worked at different times; I think we could have done more earlier.
