Q: What were the strengths of this course and/or this instructor?

1	No strengths.
2	The professor doesn't respond to students' concerns in the Teams channel.
3	Covered all the services of AWS
4	N/A
5	the recorded videos are clear and helpful for learning
6	overall good

### Q: What could the instructor do to make this course better?

1	Try and conduct classes for a change.
2	Make the course synchronous
3	N/A
4	improve more presentation skills
5	no
6	Refund every student their tuition.

Q: Please expand on the instructor's strengths and/or areas for improvement in facilitating inclusive learning.
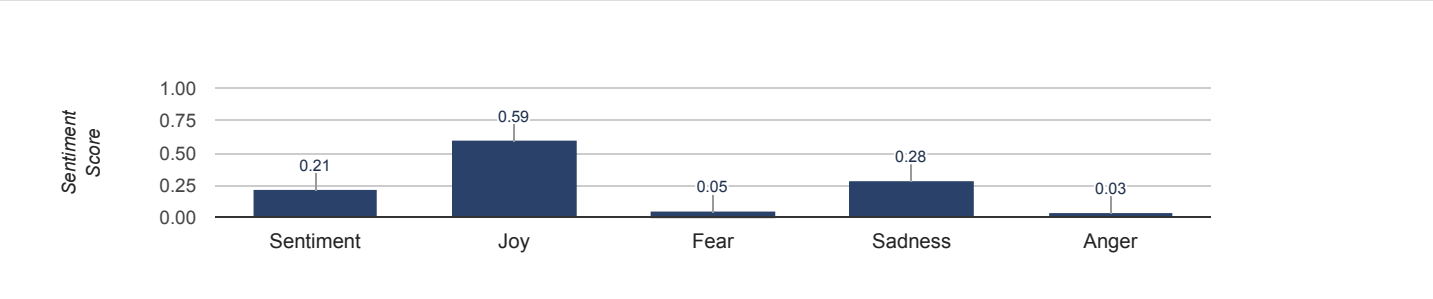

1	No Strength. I don't know anything about the professor except his name.
2	Right course material and assignments
3	N/A
4	some mistakes need to be fixed for some of the challenge labs
5	I think that Northeastern should not employ this type of professor-- I could liken this course to a grift. All materials were from a free Amazon course yet I had to pay $6,000 dollars. When labs were not working Professor Domingo was unresponsive over both teams and email. In course sessions when asked questions, the Professor was clearly unequipped for almost any question.

1   If the professor is not contributing to the online class, there is no need for the professor at all. Dumping data on canvas can be done by TAs as well. ★ ☆ ☆ ☆ ☆

2   Flexibility with class timings an learning ★ ★ ★ ★ ★

3   course could be morew connected ★ ★ ★ ☆ ☆

4   I hope to learn more coding skills ★ ★ ★ ★ ★

5   Course materials are well organized, connected to the AWS site quite well. ★ ★ ★ ★ ★

6   Professor could organize the class better, not just listed the reading/video materials to us.It always take long to wait for a person to answer students questions. A lot of self-motivated learning, readings are abstract and hard to understand, barely get instructed ★ ★ ☆ ☆ ☆

7   nice ★ ★ ★ ★ ★

8   Not much to comment. Traditional course. The bare minimum was done to repurpose Amazon materials into a course. ★ ☆ ☆ ☆ ☆

Student Self-Assessment of their Effort to Achieve Course Outcomes (8 comments)

Q: What I could have done to make this course better for myself.

1   Studied by myself and didn't waste 6500 dollars on this course. Would have appeared for the AWS certification 40 times in that money.

2   Practice more in the cloud environment to gain more practical experience

3   learnt the basics of cloud computing

4   maybe try to answer the classmates' questions more effiectly

5   given more time

6   Wish we could get more use-cases and real-world exercise other than AWS online class.

7   review more

8   Not taken it.
